Dear Foster:

Confirming my conversation with Mrs. O'Day, I have presented to Ed Gullion, of your Policy Planning Staff, a suggestion which it seemed to me you might wish to consider for the agenda of discussions with the British, at least, in connection with the implementation of the President's atomic energy proposal.

I have discussed this matter somewhat with Allen and have the impression that his organization could assemble the background information necessary for such a discussion if it is desired to proceed with it.

May God continue to bless you in every way!

The Honorable John Foster Dulles
Secretary of State
Washington 25, D.C.
